1.0 Program General Information

Program Title:	Master of Science in Leadership and Organizational Development		
Program Code:	2.MS.0218		
Authoring Team:	Program Chair		
Academic Unit:	MSLOD	Academic Dean:	Dr. Deepanjana Varshney
Publication Date:	13 Feb 2026	Initial Program Accreditation:	19 Sep 2016
Accreditation Renewal:	18 Apr 2021	Next Reaccreditation Date:	Apr 2026

1.1 Program Description

The Master of Science in Leadership and Organizational Development (MSLOD) provides skills necessary for today's dynamic business environment. The MSLOD program provides students with a high-quality professional education in modern theory and practice of Leadership and Organizational Development. Graduates from the program would be able to analyze and solve problems and effectively respond to and manage rapid technological and organizational changes prevalent in the modern business environment. This program supports the pillars of the Abu Dhabi 2030 Vision, especially those directed at the promotion of a large empowered private sector, and a sustainable knowledge-based economy. The degree provides the underpinning knowledge to students wishing to follow a career in the fields of leadership and organizational development.

1.2 Program Aim and Goals

The MSLOD program has specific goals related to the study of leadership and organizational development. The program aims to develop graduates':

- abilities to utilize relevant strategic leadership concepts and theories.
- knowledge and skills to analyze and manage the business environment to lead an organization.
- competency to apply the principles of organization development to enhance the performance of an organization.
- planning skills required to maximize results in a variety of organizational contexts.

1.3 Employer Engagement

ADSM seeks to achieve effective, beneficial and sustainable engagement with employers to meet their current and future workforce development needs. These will satisfy the aspirations of employees and help meet the targets set by the Abu Dhabi Vision 2030. This program is aimed at meeting the need of employers for Leadership and Organizational Development professionals which is not currently fulfilled by any other higher education provider in the UAE. ADSM's association with the Abu Dhabi Chamber of Commerce and Industry has set the trajectory of the MSLOD program on a course that will help it to fulfill the needs of the evolving labor market of the Emirates. ADSM has relationships with the local employers through its association with the Abu Dhabi Chamber of Commerce and Industry.

2.0 Program Accreditations and UAE Qualifications Framework

2.1 National and International Accreditations

ADSM's MSLOD program is intended to give graduates the tools, research experience and background to work professionally in local or international organizations. Graduates will be knowledgeable and skilled to adapt to various environments and help organizations create competitive advantage. The program and its respective course learning outcomes are aligned with UAE and international standards.

ADSM adheres to the formal processes of accreditation under the UAE Ministry of Higher Education and Scientific Research (MOHESR) Standards for Licensure and Accreditation administered by the Commission for Academic Accreditation (CAA), the National Qualification Center (NQC), and the National Qualifications Framework (QF*Emirates*). The ADSM MSLOD program is not currently offered in an interdisciplinary or joint (i.e., with another institution) format. The program does not currently have any international accreditation and does not have any delivery support partners.

However, ADSM is validated by the Business Graduate Association '[BGA](#)' and in the accreditation process to receive institutional accreditation by the BGA. In addition, ADSM is on the waiting list of the Association of Master of Business Administration '[AMBA](#)' to undergo the AMBA accreditation process. ADSM is a member of the United Nations supported institution, Principles for Responsible Management Education '[PRME](#)' MENA chapter initiative.

2.2 Program Learning Outcomes and QF Emirates

The ADSM MSLOD Program Learning Outcomes (PLOs) are aligned to the QF Emirates Strands of Learning Outcomes: Knowledge, Skills, and Responsibility (see Table 1). The MSLOD PLOs are also designed to meet the key competencies required so that the graduates demonstrate effective participation in the workplace, in learning, and in daily life.

Program-level outcomes (P). Students completing the MSLOD program will be able to:	Knowledge (K)	Skills (S)	Responsibility (R)
PLO1: Demonstrate an advanced comprehensive knowledge about the roles, functions, models, types, and character of leadership and organizational development.			
PLO2: Implement organizational development, theory, process, structure, and systems			
PLO3: Critically analyze the ethical and cultural dimensions of leadership			
PLO4: Evaluate and select appropriate research instruments and problem solving techniques to conduct research in leadership and organizational development	x	x	x
PLO5: Apply leadership skills required to achieve the implementation of organizational plans			
PLO6: Formulate solutions for complex organizational development problems and communicate decisions to relevant stakeholders			

Table 1. PLO Mapping against QF Emirates Standards

2.3 Course Learning Outcomes (CLOs)

Programs are made up of courses. Each course has its own intended Course Learning Outcomes (CLOs). The mapping of the CLOs to PLOs is presented in Appendix 1. Students must achieve all the CLOs to obtain their qualification.

3.0 Program Structure and Degree Completion Sequence

The MSLOD program is composed of courses that provide students with specialized knowledge of Leadership and Organizational Development. This program consists of ten 3-credit hour courses. This includes 6 core courses, 2 thesis courses and 2 elective courses, totaling 30 credit hours.

3.1 Program Structure

Table 2 below shows the program standing, course code, course title, credit hours, and pre-requisites/co-requisites in the MSLOD program.

Program Standing	Course Code	Course Title	Credits	Pre-requisites / Co-requisites
Core	LED 8111	Research Methods	3	First Term Requirement
Core	LED 8312	Leadership Culture and Ethics	3	Co-requisite: LED 8111
Core	LED 8313	Leadership and Organization Development Principles and Applications	3	Pre-requisite: LED 8312
Core	LED 8315	Leading Sustainable Performance	3	None
Core	BUS 8414	Managing Organization Change	3	None
Core	BUS 8421	Strategic Management Principles	3	Pre-requisite: LED 8313
Thesis	LED 8918	MSLOD Individual Consultancy Thesis I (Proposal)	3	Pre-requisites: A minimum of four core courses (12 credit hours), which must include: LED 8111, LED 8312
Thesis	LED 8919	MSLOD Individual Consultancy Thesis II (Final)	3	Pre-requisites: LED 8918 and All Core Courses
Elective	LED 8320	The Challenges of Organizational Leadership	3	Pre-requisite: LED 8312
Elective	LED 8325	Organizational Behavior	3	Pre-requisite: LED 8313
Elective	BUS 8419	Conflict Management	3	Pre-requisite: BUS 8414
Elective	BUS 8340	Concepts in Contemporary International Business Management	3	Pre-requisite: BUS 8421

3.2 Program Degree Completion

Full-time students will be able to complete the program in 15 months by taking one to three courses in each of five consecutive terms. Tables 3-5 below show the study plan and program sequence for full-time students.

Code	Type	Title	Credits
Term 1: Fall			
LED 8111	Core	Research Methods	3
LED 8312	Core	Leadership Culture and Ethics	3
Term 2: Winter			
LED 8313	Core	Leadership & Organizational Development Principles & Applications	3

Table 5. MSLOD Study plan and program sequence (**Spring Intake**)

4.0 Program admission requirement

4.1 Graduate admission requirement

Applicants to the program are required to have;

- an earned Bachelor's degree recognized by the Ministry of Education in a relevant field in Business (Applicants with a degree in an area other than business but have relevant work experience, or professional qualifications may be considered, providing that they attend and successfully complete the Bridging Course(s),
- a minimum score of 1250 on the English language portion of the EmSAT examination, or its equivalent on other national or internationally-recognized tests that are approved by the CAA, such as TOEFL scores of 197 CBT, 71 iBT, 530 PBT, or 5.5 IELTS.

For conditional entry, applicants to the program are required to meet the conditions as published within the policy P 401 Graduate Admission Policy (see Appendix 2).

4.2 Transfer Admission Policy

Graduate students are typically expected to complete all degree requirements in residence at ADSM. Transfer credits for courses taken elsewhere are accepted as deemed appropriate by ADSM. (See P 402 Transfer Admissions Policy and P 401 Graduate Admission Policy)

5.0 Program Teaching Pedagogy

5.1 Teaching and Learning Methods

Over a duration of 10 weeks (6 weeks in summer), the program will primarily be delivered through interactive lectures. This helps students to deepen their understanding of the key theories, approaches, and practices used in the real world. Lectures will follow the syllabus and draw upon the main textbook and other key readings. Students are also required to read around the topics to extend their understanding further. This enables students to actively evaluate and critically discuss lecture topics. It is important that graduate students discuss key topics to formulate and to articulate their views and perspectives. The teaching and learning methods also include case studies, tutorials, seminars, videos and assessment strategies.

5.2 Mode of Delivery

The MSLOD program is offered in a traditional face-to-face teaching mode. In emergency situations, course delivery will consist of technology-based virtual class sessions. Courses will be delivered over a 10-week period (6 weeks in summer) on weekdays from 4:30 pm to 9:30 pm. Each 3-credit course will consist of 45 contact hours of lectures and other learning activities. Assessments are conducted outside the contacts hours. Each 'Thesis' course will be delivered over a period of ten weeks (see **P 322 - Thesis Policy**).

5.3 Learning Management System (LMS)

ADSM's Learning Management System (LMS) is a customized version of Moodle 3.7. A reliable LMS is essential to the delivery of the program and enables students to access information remotely. This is an e-learning resource that hosts discussion forums, practice assessments and related reading. Independent learning is consistent with the expectations of graduate study. It provides a very effective basis for

feedback and coaching improvements (formative assessment) and encourages student engagement outside of class contact hours. (Refer to **Section 8.3.1** Assessment of Classroom for further discussion on LMS).

6.0 Program Aspects of Competencies

The MSLOD program adheres to ADSM's **P301 Grading and Assessment Policy**. This governs the principles of assessment at ADSM, including the QF*Emirates* Level 9 compliance (see Appendix 3), and CoreLife Skills (see Appendix 4). Students are required to complete two summative assessments. These will range in their level of difficulty. The first assessment ranges from Lower to Moderate skills and is weighted at 40%. The second assessment is pitched at Moderate to Upper skills and is weighted at 60%. These assessments will offer students the opportunity to evaluate and synthesize industrial case studies (both international as well as GCC, especially UAE) against taught theories and concepts. Moreover, the students will also conduct guided research on a related topic in more depth which will be used to assess students' conceptual clarity and analytical ability.

Out-of-class assessments must be submitted through ADSM's LMS portal (specifically Turnitin through Moodle to evaluate the work for plagiarism). Work must not be emailed to the instructor. Penalties will apply for submissions that are made after the submission due date.

7.0 Program Quality Assurance

7.1 Institutional Effectiveness Office

ADSM ensures that each program meets the UAE's regulatory requirements. It adheres to the policies and procedures stipulated by its Institutional Effectiveness (IE) Office. The IE office is responsible for improving educational programs and ADSM's overall effectiveness. The IE team are dedicated to supporting and promoting the practice of continuous improvement. The team works closely with the Academic Dean to identify the direct and indirect criteria that best measure the achievement of program and course learning outcomes (see P 106 Quality Assurance Policy). The IE team members participate in academic policy

formulation committees and work closely with the Academic Dean, Program Chairs, and Director of Student Affairs to identify opportunities for improving the students' experience.

The IE team conducts surveys to measure students' levels of satisfaction with their experience. The IE team conducts several surveys regarding students, faculty, graduates, and alumni experiences. The IE team analyzes program-related performance, assesses student achievement of learning outcomes, and ensures program planning and improvement activities are completed. The IE team uses the Course Critical Self-Assessment Report (CSER) to examine how effectively the course met the learning outcomes and suggests improvements with time bound actions for the purpose of "closing the loop". In addition, the collection and analysis of survey data help the Academic Dean evaluate the program's effectiveness.

7.2 Institutional Planning

ADSM maintains a Strategic Plan that charts the progress towards achieving its goals. At the program level, the Academic Dean and faculty member discuss the incremental changes in the course syllabus to meet the relevant learning needs of students. Such improvement in the course syllabus requires the institution's Curriculum Development Committee (CDC) approval. The Academic Dean and Director of Academic Programs consult with external industry experts through the MSLOD 'Academic Program Advisory Committee 'APAC', to ensure that the curriculum of each program is relevant and up-to-date.

8.0 Student Services and Learning Resources

8.1 Student Services and Academic Advising

Students are supported through the work of ADSM's Student Affairs team. This includes admissions, registrations, scholarships and access to the Academic Support Center (ASC). The ASC provides support and assistance with course work including research and writing skill. In addition, students can seek academic advice, co-curricular help, and various forms of counselling from a dedicated Academic Advisor assigned to each program. A student requiring assistance needs to book an appointment with the Advisor via the LMS. For more information, see **P 417 Academic Advising Policy** and **P 408 Career Services Policy** within the ADSM Student [WebPortal](https://lms.adsm.ac.ae) (lms.adsm.ac.ae).

8.2 Learning Resources: Library

Students have access to excellent digital resources. ADSM is a postgraduate-only institution and the majority of its students are working professionals who visit the campus primarily during class hours. To cater to the needs of such a student body, ADSM focused almost exclusively on electronic learning resources. ADSM's library provides access to 76,403,073 eBooks, the ProQuest Business Premium Collection, LibriVox, public domain audiobooks; and Abu Dhabi Data, a platform of all Abu Dhabi Open Datasets. These resources can be accessed from off-campus sites (see **P 601 Library Policy**). The library supports both faculty members and students in their research-based undertakings. Student satisfaction with Library services is measured through the annual Student Survey (refer to 7.1), which includes the questions mandated by the CHEDS (Center for Higher Education Data and Statistics).

8.3 Learning Resources: Technology

ADSM's campus offers a stimulating learning environment through well-equipped facilities. Each classroom is equipped with a computer that is connected to the Internet and Smartboards to support instruction and Wi-Fi for students to facilitate coursework. There are computer suites where students can complete assignments, conduct research and browse the internet. There is high-speed Wi-Fi internet access throughout the campus. The IT unit facilitates technology requirements of faculty and students.

This includes training for faculty and students in the use of the LMS as the official academic platform. ADSM regularly evaluates Help Desk Tickets and assesses the problems, issues, and needs of its user community. ADSM obtains feedback from students on IT services through the Annual Student Experience Survey.

Appendix 2. MSLOD Program Admission Criteria

Conditional Admissions into the MSLOD Program

Applicants may be granted conditional admission following an interview with the Admissions Committee and based on one of the following criteria:

1. **Conditional Academic:** granted to applicants who are not able to provide a bachelor's degree recognized by the MOHESR at the time of their admission. These applicants may be admitted as Conditional Academic and must provide the required recognition by the end of the first term of study.
2. **Conditional ELR:** granted to applicants who do not meet the English Language Requirements. These applicants may be admitted as Conditional ELR, and must:
 - Take a maximum of six (6) during their first term of study.
 - Complete the Academic English (ACE 6001) course during their first term of study.
 - Provide one of the following valid and current English Language proficiency certificates:

IELTS (Academic)	TOEFL (iBT)	TOEFL (CBT)	TOEFL (ITP)
5.0	61	173	500

All instruction at ADSM is carried out in English and you will need to demonstrate an adequate level of English language proficiency to enrol.

Appendix 3. QFEmirates 6 Strands of Learning Outcomes for Level 7

Table 10. QFEmirates Level 7 – Knowledge and Skills

Level	Knowledge (K)	Skills (S)	Responsibility (R)
7	The learner demonstrates a specialized, integrated, and comprehensive theoretical, practical, and real-world understanding of a range of knowledge, in addition to a critical awareness of qualitative and quantitative data collection, interpretation, and analysis methods, which facilitate the formulation and development of a flexible and effective strategy for dealing with concepts, theories, and achieving objectives.	The learner applies specialized cognitive and practical skills to integrate, analyse, construct, and evaluate complex information, plan and conduct independent research, and generate creative solutions to develop knowledge, procedures, and integrate knowledge from various fields.	The learner demonstrates creativity and spirit of initiative in novel work or study situations, exhibits a high level of accountability and independence, takes responsibility for self-directed learning, and exhibits leadership, management, entrepreneurship, innovation, collaboration, ethical behaviour, responsible citizenship, and co-existence with others.
